Projects:

• ICS:

ICS stands for Intelligence Camera Security, In this Project basically we are trying to develop a face recognition and identification system , If any unauthorized Person comes in ICS range than It will immediately send that person image with arrival time to the owner so that owner can direct check CCTV photage from arrival time in this way we try to save time. Instead of watching whole day recording owner can directly check photage from arrival time.

My contribution: Collecting Datset,Face detection from image/video and making website to store unkown person data(in future we will implement.

• Snake Game:

I made a snake Game from scratch in python.

- Others Project: I made password maneger, Automatic Birthday wisher and several minor python projects.
